

Thailand's Annual International Training Course  
(AITC)  
Course Information

**Sexually Transmitted Infections Case Management Skills**

5 – 16 March 2018

*Closing date for application : 31 January 2018*

**TICA : Thailand International Cooperation Agency** is a national focal point for Thailand's international development cooperation. TICA was established in 2004 to realize Thailand's aspiration to be a contributor of development cooperation. Believing that global challenges are best addressed by international cooperation and global partnership, today we continue to strengthen our contribution to achieve global development agenda through various capacity-building and human resources development programmes. In response to the recent changes in the global landscape of development cooperation, especially through the concept of South-South and Triangular Cooperation, TICA continues to realign our focuses in order to deliver Thailand's commitment to be a relevant partner in global agendas including the 2030 Agenda for Sustainable Development.

**AITC : Annual International Training Course** was initiated in 1991 as a framework in providing short-term training for developing partners. Today, the AITC remains one of TICA's flagship programmes. It offers not only a training experience, but also a platform in exchanging ideas and establishing professional network among participants from across the developing world. Aiming at sharing Thailand's best practices and experience to the world, the AITC training courses focus on development topics of our expertise currently categorized under five themes namely; "Sufficiency Economy Philosophy" or SEP, Food Security, Public Health, Climate Change, and Other topics related to Sustainable Development Goals (SDGs).

**International Training Center on AIDS, TB and STIs, Department of Disease Control, Ministry of Public Health**

International Training Center on AIDS, TB and STIs was established in 2004 to conduct international training courses on AIDS, TB and STIs, one of the most pressing international health agendas. This training course was originally formulated in 1977 and was continuously conducted by the Ministry of Public Health with an aim to share Thailand's accumulated experience and expertise in sexually transmitted infections case management for clinicians and health professionals from Asian countries and beyond.

**AITC Theme : Public Health**

This training course falls under the AITC theme – "Public Health". We believe that health is a very important component for economic and social development, national security, regional and global stability. In the post 2015 context, health has been increasingly recognized as a key contributor in development as good health is one of the fundamental building blocks of society and sustainable development. From improved quality to inclusive healthcare system, Thailand has been sharing our experience and lesson-learned with developing partners on the road to achieve health-related Sustainable Development Goals (SDGs).

**Course Objectives**

This training course aims at sharing Thailand's experiences in sexually transmitted infections (STIs) case management. At the end of this course, participants are expected to;

- Understand STIs case management approaches.
- Gain knowledge and skills to be able to make correct, timely and efficiently diagnosis and treatment of STIs.
- Be able to apply knowledge and skill gained to the case of their respective countries.

**Course Methodology**

Training methodologies to be used during this training course include;

- Lecture
- Clinical practices
- Lab work
- Group discussion
- Study visit

**Assignment and Evaluation**

- In-class participation and discussion.
- Group work - formulation of country's Action Plan.
- Advance assignment - Submission and 10-minutes presentation of "Country Report" which contains information on STIs management profile of their respective countries that include, such as current situation, national plan and strategies, challenges and future plans.
- Attendance - Participants are required to attend all activities organized during the course. TICA reserves the rights to revoke its fellowship offered or take appropriate action in case a participant is in attendance of less than 90 percent of the training hours.

**Course Outline**

This training course offers knowledge and understanding on key concepts and skills necessary for effective STIs case management. Topics of training are such as;

- Overview of STIs/HIV
- STIs diagnosis
- Urethral symptoms and scrotal swelling approach and management
